PILATES

Live in balance

THE COMPANY

Our company has been dedicated to manufacturing Pilates equipment for 20 years, which has allowed us to gain extensive and in-depth experience and knowledge within the Pilates industry. We are a company committed to quality and innovation, which has led us to develop some of the most advanced and recognized Pilates equipment on the market.

Our products are designed to provide a superior Pilates experience for both beginner and advanced users. We offer a wide range of products, from classic Pilates machines to more innovative equipment that incorporates advanced technologies. All our products are designed in collaboration with international Pilates experts, ensuring their quality and effectiveness.

In our production processes, we ensure that only the highest-quality materials are used and that the strictest quality standards are applied at every stage of production. In addition, we are constantly evolving and developing new products, which allows us to remain at the forefront of the Pilates industry and continue improving the user experience. Our company also offers high-quality customer service, with a highly trained team committed to providing the best possible support to our clients. We care about meeting their needs and are always ready to help.

Finally, our products have received numerous praises and recognitions within the sector and are used and recommended by some of the most renowned Pilates professionals in the world. In addition, our company participates in major industry events. Thanks to our commitment to innovation and quality, we hold multiple patents and proprietary industrial designs that make our products truly unique.

ELITE ADVANCED REFORMER

ELN 100556

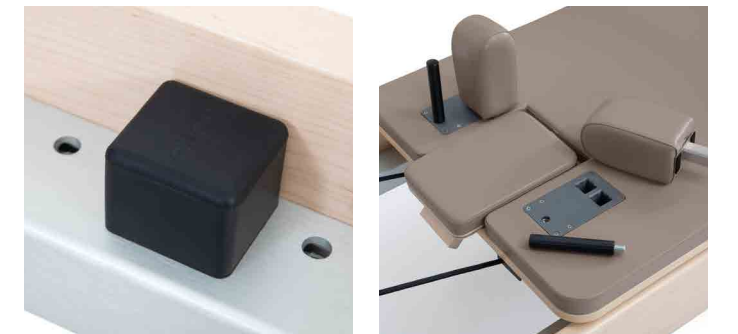

The Elite Advanced Reformer by Elina Pilates represents the evolution of our most recognized machine, designed to deliver maximum performance, versatility, and functionality in professional studios. It is crafted from high-quality maple wood and stainless steel metal components, ensuring durability, stability, and a premium user experience. One of the most outstanding features of the Elite 2.0 is its stackable design, ideal for optimizing space in studios. Its innovative design also incorporates improvements that enhance the training experience, such as the new infinite footbar, which slides along the entire length of the reformer, allowing quick adjustments and a greater variety of exercises.

FEATURES

- > Frame made of durable maple wood and designed for intensive professional use.
- > Sliding infinite footbar, allowing positioning along the entire length of the reformer for quick adjustments and greater exercise versatility.
- > Padded and non-slip footbar and standing platform.
- > Smooth and ultra-quiet carriage with eight polyurethane wheels and high-precision bearings.
- > High-quality upholstery, resistant to intensive and continuous use.
- > Automatic retractable rope system that allows the ropes to be stored underneath the carriage.
- > Carriage stopper system adjustable in 3 positions.
- > Complete set of six springs with a double-height spring bar to combine resistance levels according to the desired intensity
- > Three-position adjustable headrest.
- > Padded and adjustable shoulder rests, easy to place and remove.
- > Medium padded box, stable and comfortable for a variety of exercises.
- > Extra-wide removable jump board designed to facilitate proper foot placement.
- > Foot strap located in the well area, adjustable along the length of the machine.
- > Foot strap that can be positioned on both the inner and outer sides of the reformer.
- > Integrated wheels on the front legs to facilitate transport of the reformer.

Dimensions: 241 × 77 × 35 cm.

ELITE ADVANCED REFORMER WITH TOWER

ELN 300556

The Elite Advanced Reformer with Tower by Elina Pilates represents the evolution of our most recognized machine, designed to deliver maximum performance, versatility, and functionality in professional studios. It is crafted from high-quality maple wood and stainless steel metal components, ensuring durability, stability, and a premium user experience even in high-intensity training environments. Its innovative design incorporates improvements that expand training possibilities, such as the new infinite footbar, which slides along the entire length of the reformer, allowing quick adjustments and a greater variety of exercises and positions.

FEATURES

- > Frame made of maple wood, durable and designed for intensive professional use.
- > Sliding infinite footbar, allowing it to be positioned along the entire length of the reformer for quick adjustments and greater exercise versatility.
- > Integrated tower, expanding training possibilities by incorporating Cadillac-inspired exercises and vertical spring work.
- > Padded and non-slip footbar and standing platform for greater comfort and safety.
- > Smooth and ultra-quiet carriage with eight polyurethane wheels and high-precision bearings.
- > High-quality upholstery, resistant to intensive and continuous use.
- > Automatic retractable rope system that allows the ropes to be stored underneath the carriage.
- > Carriage stopper system adjustable in 3 positions
- > Complete set of six springs with a double-height spring bar to combine resistance levels according to the desired intensity.
- > Three-position adjustable headrest.
- > Padded and adjustable shoulder rests, easy to place and remove.
- > Medium padded box, stable and comfortable for a variety of exercises.
- > Extra-wide removable jump board designed to facilitate proper foot placement.
- > Foot strap located in the well area, adjustable along the length of the machine.
- > Foot strap that can be positioned on both the inner and outer sides of the reformer.
- > Integrated wheels on the front legs to facilitate transport of the reformer.

Dimensions: 241 × 77 × 35 cm.

Maximum height with tower: 202 cm.

MASTER INSTRUCTOR REFORMER

ELN 100146

The Master Instructor Reformer is an exceptional professional Pilates machine available in four versions designed to adapt to your needs. Each one is created to provide a superior training experience.

The Elina Pilates Master Instructor is a professional reformer made from American maple wood, available with two bed heights: 40 cm and 60 cm from the floor. The versatility of this reformer, which includes a mini tower, allows you to perform hundreds of exercises suitable for all levels, from beginners to advanced practitioners.

The Master Instructor not only includes everything needed for a complete workout, but also features innovative functionalities typical of a next-generation reformer.

WORK OUT AT HOME

FOLD REFORMER

ELN 300686

The Elina Pilates Foldable Home Reformer is the perfect choice for those looking for a high-quality reformer with a professional design, yet adapted for home use. Its compact, foldable, and elegant structure, made from maple wood, ensures stability, firmness, and durability.

With our patented system, both parts of the reformer align perfectly when unfolded, eliminating the uncomfortable bump often felt when moving the carriage. Unlike other models that develop annoying gaps over time, our mechanism guarantees a consistently smooth, continuous, and seamless glide.

It includes everything needed for a complete workout in the comfort of your home. This reformer allows for hundreds of exercises suited for all levels, from beginner to advanced.

FEATURES

- > Made from light-toned maple wood.
- > Waterproof varnish that protects the wood from wear and tear.
- > Quick release system with six adjustable positions.
- > Padded bar to prevent slipping of feet and hands.
- > Ultra-quiet carriage thanks to its eight special polyurethane wheels and high-precision bearings.
- > Patented alignment system.
- > Retractable automatic cord storage system that allows cords to be stored at the bottom of the carriage.
- > Sophisticated bed cushioning mechanism that allows exercises to be performed smoothly, preventing noise and sudden impacts.
- > Adjustable padded shoulder rests for easy placement and removal.
- > Springs made from a high-quality, durable alloy that provides optimal resistance.
- > Adjustable headrest with three positions.
- > Removable foot support that is easy to place, with a lateral finish that facilitates gripping.

Dimensions: 235 x 61 x 28 cm (legs folded) – 35.5 cm (legs extended).

Folded Reformer Dimensions: 42 cm width (without foot bar) x 130 cm height x 66 cm depth. 73 cm width (with foot bar).

Weight: 72 kg (without accessories).

VERTICAL REFORMER

ELN 300646

The Elina Pilates Vertical Home Reformer is the perfect choice for those looking for a high-quality reformer with a professional design, yet adapted for home use. Its compact and elegant structure, made from maple wood, ensures stability, firmness, and durability.

This reformer is not only easy to transport and store in any corner of the home, but it also features a super-safe vertical storage system. Two removable legs provide a stable and firm base when stored, ensuring maximum safety when not in use.

To better adapt to each user's needs, the Vertical Reformer offers two bed height options, thanks to its adjustable legs (28 cm and 35.5 cm from the floor).

FEATURES

- > Made with light-toned maple wood.
- > Waterproof varnish that protects the wood from wear and tear.
- > Quick release system with six adjustable positions.
- > Padded bar to prevent slipping of feet and hands.
- > Ultra-quiet carriage thanks to its eight special polyurethane wheels and high-precision bearings.
- > Retractable automatic cord storage system that allows the cords to be stored at the bottom of the carriage.
- > Sophisticated bed cushioning mechanism that allows exercises to be performed smoothly, avoiding noise and sudden impacts.
- > Adjustable padded shoulder rests for easy placement and removal.
- > Springs made of a high-quality alloy with great durability, providing optimal resistance.
- > Adjustable headrest with three

- positions.
- > Removable foot support with easy placement, thanks to its lateral finish that facilitates gripping.

Dimensions: 235 x 61 x 28 cm (legs folded) – 35.5 cm (legs extended).

Weight: 62 kg (without accessories).

ELN 300600

DOMO REFORMER

Our reformer specially designed for domestic use. It is made of aluminum, which makes a strong and lightweight reformer.

Easy to fold, it takes up very little space and can be stored under a bed or in an upright position.

- > Natural leather straps.
- > Aluminum spike.
- > Foot straps for securing the feet.
- > A pair of wooden handles.
- > 4 classic-style springs
- > Classic box and padded jump board platform.

Dimensions: 220x66x35 cm.

CLASSIC ALUMINIUM REFORMER 86" WITH TOWER

ELN 300106

Classic design according to the legacy left by Joseph Pilates, creator of the Pilates method.

Reformer with tower designed in a compact anodized aluminum reinforced structure of great resistance. With long lasting leather upholstered bed filled with very comfortable high density EVA foam. Fully functional and versatile, it allows to perform a wide variety of exercises with total precision, comfort and safety.

FEATURES

- > Same features as the Classic Reformer, adding the tower components:
- > Steel tower with safety chains.
- > Set of 8 springs: 2 leg springs, 2 arm springs, 2 push-through bar springs, and 2 roll-down bar springs.

- > Wooden push-thru bar and roll-down bar.
- > Mat to cover the surface.
- > 1 set of foot handles.

Dimensions: 220x66x35 cm.

Height with tower: 185 cm.

CLASSIC NATURAL WOOD REFORMER

ELN 300106

The 86" Classic Natural Maple Wood Reformer is an iconic piece designed to take your Pilates practice to the next level. Inspired by the legacy of Joseph Pilates, this reformer embodies the essence of the original Pilates method while incorporating contemporary improvements that ensure a smooth, precise, and long-lasting experience.

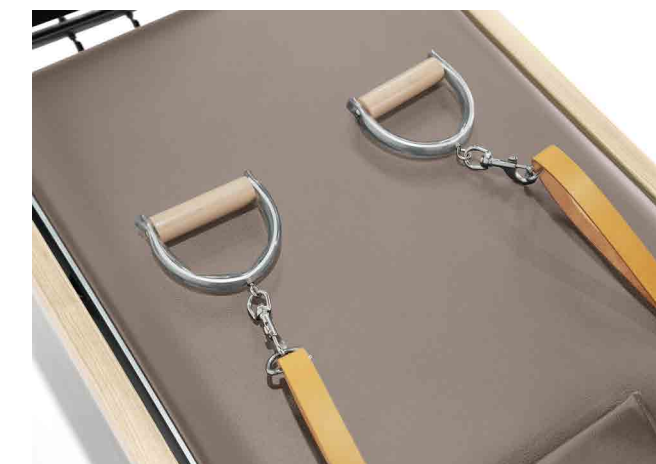

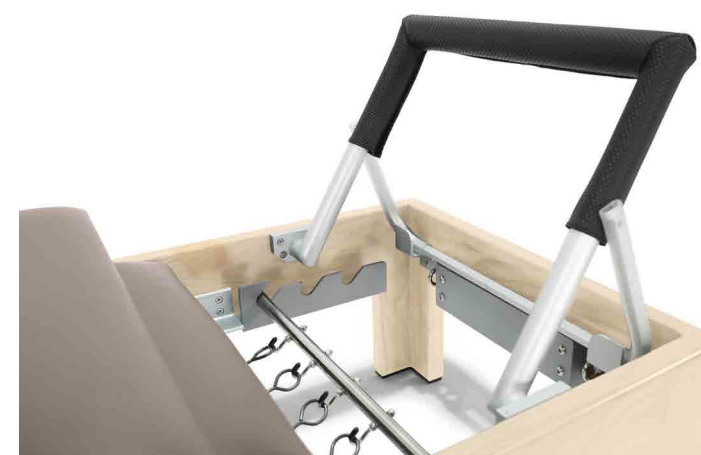

Crafted from solid natural maple wood, this equipment stands out for its elegance, stability, and durability, making it an ideal choice for both professional studios and discerning practitioners. Every detail has been carefully designed to honor the authenticity of the classical method: natural leather straps, traditional metal pole, and wooden handles—elements that evoke the craftsmanship of original classical Pilates while delivering the reliability and quality demanded by today's training.

FEATURES

- > Structure made of 86" maple wood.
- > Classic footbar.
- > Padded, non-slip classic footboard.
- > High-quality upholstery, resistant to intense and continuous use.
- > Natural leather straps.
- > Classic wooden handles.
- > Adjustable stopper mechanism for the carriage, both at the head end (2 positions) and the foot end (adjustable in 3 positions).
- > Complete set of four classic springs with an adjustable spring bar in 3 positions to combine resistances according to desired intensity.
- > Adjustable headrest with 3 positions.
- > Removable padded shoulder rests, easy to place.
- > Stable padded classic box.
- > Removable padded classic jump board, easy to position.
- > Foot straps that can be placed both at the front of the reformer and on the inner side under the footbar.

Dimensions: 225 × 66 × 35 cm.

ELITE CADILLAC REFORMER

ELN 700192

Exclusive and modern design. Best benefits to professionals in the sector.
 It incorporates innovative systems such as the push bar, the quick change of foot bar positions, a bar for 6 springs and quick-adjustment pulleys.

FEATURES

- > The carriage runs on a two-piece rail system that provides a stable, smooth, and silent glide, featuring a strong internal frame, adjustable alignment control, and foam padding.
- > The carriage uses an eight-wheel system: four vertical wheels to support the carriage and four adjustable lateral wheels to keep it perfectly aligned between the frames.
- > It includes comfortable padded surfaces, highlighted by a cervical support with a three-position headrest, two quick-release shoulder rests adjustable in four positions, a large padded and upholstered jump board, and a foot bar adjustable in seven positions.
- > As a result of significant innovation, the reformer also features our new chair push bar. This integrates the Pilates Chair concept directly into the Cadillac-Reformer, creating a very compact solution that helps optimize space.
- > It includes two springs (red), although the push bar can be connected using either one spring or both springs simultaneously.

Dimensions: 248x88x56 cm.

Height with tower: 220 cm.

INCLUDES

- > Adjustable shoulder pads to 4 positions, easy adaptation to each user.
- > Adjustable headrest in 3 positions.
- > Stainless steel tower with front and rear hitch for Pilates exercises. Easy to remove.
- > Pulley bars with quick height change and removable quick-release system.
- > 7-position quick-change footbar.
- > Push Bar adjustable in 4 heights.
- > 1 push bar safety strap.
- > Wooden trapeze bar with padded protection, with covered springs for greater safety and stabilizer belt.
- > 1 set of pulley ropes, 1 adjustable foot strap.
- > 1 adjustable box strap.
- > 1 velcro strap.
- > Roll-down bar in solid maple wood.
- > Springs : 2 light (yellow), 2 medium (green) and 2 strong (red).
- > 1 spring bar with 4 positions and 2 rows of prestressed anchors.
- > 2 long green springs for the chair, 1 chair frame and 1 set of supports with sliding along the pit.
- > 1 set of double cotton padded handles for hands and feet, 1 set for feet and 1 set of padded handles.
- > 1 pair of Fuzzies handles , very soft, 1 stopper with sliding along the structure and 2 bars for horizontal and vertical sliding, with quick adjustment system.
- > Includes the jump board, Box, anti-slip foot platform and Standing Platform for the feet and double mat to completely cover the surface.
- > 1 set of double cotton padded

ONNE

Experience has always been a determining factor in creating innovative Pilates machines and, in the development of the Wall Board ONNE, it has been more important than ever. The combination of the experience of the renowned Pilates trainer Eva Espuelas and the manufacturing know-how of Elina Pilates have resulted in a new machine capable of satisfying the needs of the most demanding.

Versatility, elegant design, dimensions, adaptability and ease of use are just some of the characteristics that can define this unique 100% Spanish-made product. Revolutionizing the concept of the traditional Wall Board, the use of space offered by ONNE allows the work of Pilates Machines to be carried out by larger groups, as well as incorporating new elements that multiply the functionalities of its use, offering the user the possibility of enjoying 5 machines in one.

In addition to its careful aesthetics and adaptability systems to the specific measurements of each person and training, ONNE is a unique machine that incorporates features for the work of different machines such as the Cadillac, PED-PULL, Inclined Platform, Ballet Bar and Training in Suspension, achieving with all of them an exceptional performance, since all the components of the training are worked on.

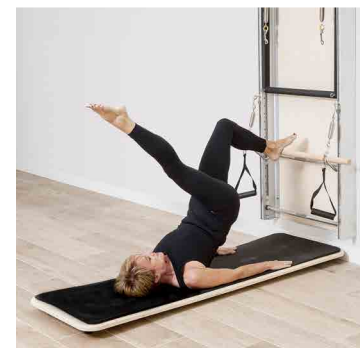

WALL BOARD ONNE

It is a unique machine that is characterized by its versatility, and is also an excellent option for those who need to take advantage of space.

5 MACHINES IN ONE:

Cadillac + Ped-Pull + Inclined Platform + Ballet Bar + Suspension Training.

INCLUDES

Among the innovative elements that it incorporates are:

> **INCLINED PLATFORM:**

It maximizes results since it provides the performance of exercises on this plane, making them more complex depending on the degree of inclination that you want to exploit, achieving adaptations that cannot be developed on the ground. This platform is easy to store and clean and its non-slip mat can be easily removed and replaced.

> **BALLET BAR:**

Cylindrical piece of wood that allows bodybuilding exercises and helps correct postural positioning.

> **BELT:**

Element that can be used to carry out suspended work.

> The ONNE Wall Board, made with the best materials and the characteristic quality of Elina Pilates products, is a solution that saves space, providing the user with the possibility of performing countless exercises on a single machine.

> Made of wood and aluminum, ONNE is fully adjustable and ready to be anchored to the wall.

FEATURES

- > Wall Board.
- > Wooden mat table with non-slip mat and regulable base.
- > Ballet bar. Regulable height.
- > Roll-down bar.
- > Regulable push-bar.
- > Regulable Ped-Pull.
- > Hanger for springs and accesories.
- > Spring handle. Regulable height.
- > Springs: 2 long light (yellow), 2 short medium (green) y 2 short.
- > Handle complete set (foot handle and padded handle).
- > Adjustable fastening strap.

ELN 300021

BASIC

Without ballet bar and without mat table.

ELN 300022

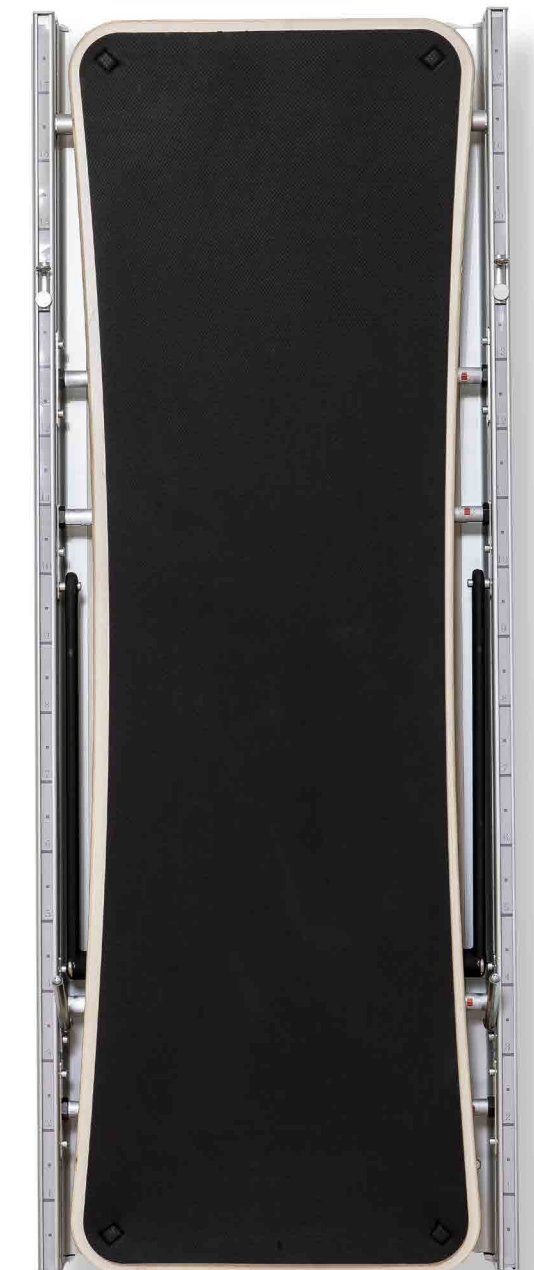

FULL EQUIP

With ballet bar and without mat table.

Machine width: 68,5 cm.

Width with ballet bar: 100 cm.

Height: 209 cm.

WALL UNIT

ELN 700230

Elina Pilates' Wall Units are one of the most requested products by the classic Pilates studios. Manufactured with high quality and durability materials. Covered with special leather for Pilates. Structure of reinforced wood, very resistant. Anti-slip, ecofriendly materials.

ELN 400306

With the Pilates Baby Chair you can strengthen your back and accelerate the recovery process of injuries through more than 60 types of exercises. Can be performed similar exercises to those we do on other Pilates equipment, making it ideal for learning processes. An ideal tool for Pilates teachers.

INCLUDES

- > It accelerates the process of recovery from injuries and rehabilitation of adults and weak people. It also strengthens the back.
- > You can do exercises very similar to those you would do on a Pilates Reformer, a much larger machine. Therefore, it is perfect for learning the movements comfortably and safely.
- > Its smaller size makes it easier for the teacher to access the student and enhances the learning and teaching process.
- > Thanks to the structure of the Baby Chair you can perform more than 60 different Pilates exercises.
- > The Baby Chair consists of a base on which you can sit or kneel and two springs to place the arms connected to a movable backrest.

CLASSIC WUNDA CHAIR

ELN 400106

Classic Wunda Chair designed in solid maple wood of high quality and resistance. The resistance of the pedal is regulated by two springs that generate a tension adapted to the preferences of each user. Maximum comfort oriented to generate the least possible muscle tension.

INCLUDES

- > Maple wood frame.
- > 2 springs.
- > 3 spring hook positions.
- > Different upholstery colors available.

Length: 78,74 cm.

Width: 53,34 cm.

Height: 58,42 cm.

FOLDING MAT WITH HANDLES

ELN 300056

Folding Classic Mat with handles with very comfortable and pleasant to the touch padding of great durability. It adapts to the structure of your body both in static and in movement. Allows muscle toning, increase flexibility and rehabilitation of injuries through specific exercises aimed at continuous evolution.

FEATURES

- > The two wooden bars of pleasant touch and great resistance allow exercises that relieve joint tension in the shoulders
- > providing the necessary stability to perform the exercises.
- > It is very light and, thanks to its two wooden bars, it is very easy to move wherever you need it.
- > And because it is foldable, you can store it in the space you have at home or in your studio.
- > Perfect for both beginners and advanced users.

INCLUDES

- > Two detachable wooden handles.
- > Two moon boxes of the same thickness to complete its function.
- > It has two handles on the sides to transport it comfortably once folded and reduced in size.
- > Different upholstery colors available.

Unfolded dimensions:

Length: 200 cm.

Width: 60 cm.

Height: 5.5 cm.

Folded dimensions:

Length: 100 cm.

Width: 60 cm.

Height: 11 cm.

LADDER BARRELLS

Medidas: 102 x 24,5 cm. **Diámetro:** 3 cm

CLASSIC ACCESORIES

AIRPLANE BOARD

ELN 500105

Perform the Airplane Pilates exercise comfortably, safely and in a controlled manner on your Cadillac thanks to the Airplane Board. Its solid wood base provides the support and confidence you need to perform the most difficult Pilates exercises. Suitable for all types of users.

By attaching the Airplane Board to your Cadillac, you will be able to perform the Pilates Airplane exercise in a more comfortable, controlled and safe way. You'll literally be standing up in the air.

The solid wood base provides support and confidence during your Pilates workout, even the most difficult exercises..

BEAN BAG ROLL-UP DEVICE

ELN 500106

Strengthen the mobility of your arms, wrists and forearms by exercising with the Bean Bag. Place the bar at shoulder height and unroll and roll up the rope. Ideal for tennis elbow healing therapies.

The Bean Bag exercise consists of placing the wooden bar at shoulder height and rolling and unrolling up the rope around the bar. You must maintain a very specific position so that the fingers, hands, wrists and forearms are strengthened during the exercise.

BREATH A CIZER

ELN 500104

The Pilates breathing exerciser is a device with a windmill-type wheel. Blowing through the straw moves the wheel and improves diaphragmatic breathing.

CLASSIC ACCESORIES

FOOT CORRECTOR

ELN 500100

Correct and strengthen your feet, improve your balance and helps you to walk better with the Foot Corrector. It adapts to all types of feet and its material is soft and resistant, avoiding pinching or damage.

NECK STRETCHER

ELN 500101

With the Neck Stretcher you can strengthen your neck muscles, facial muscles and reinforce the stability of your spine. Regular use can lengthen the neck joint. To use it, you need a Pilates Cadillac, a Wall Unit or a Guillotine Tower for Pilates.

The Neck Stretcher has a strap that is tied around the forehead and back of the neck, a ring that attaches it to a machine that exerts resistance and two rubber straps that attach to a Cadillac, Wall Unit or Guillotine Tower. Once attached to your forehead, you must pull with your neck so that the machinery exerts resistance and you can exercise your neck muscles.

Of course, the correct use of the Neck Stretcher will not cause you any harm, but quite the opposite: it will strengthen your neck muscles, your facial muscles and reinforce the stability of your spine. Of course, you must do the exercises with care.

CLASSIC ACCESORIES

PUSH UP DEVICE

ELN 500103

Push-up device or structure to do push-ups for Pilates in a stable and safe way. Develops the nervous system through a wide range of movements.

It prioritizes the development and care of the nervous system and exercises the muscle groups in a uniform and balanced way. You can perform a wide range of motion in your push-up workouts, combining them and extending your sessions. Its main exercises define the body, they do not generate hypertrophy.

The push-up machine is very stable and safe, allowing all types of Pilates movements without interference. The very structure makes it easy to transport, as it has comfortable grips of great resistance and does not weigh excessively.

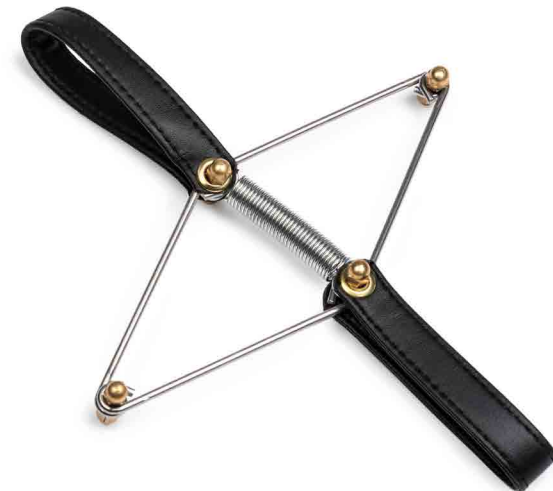

TOE EXERCISER

ELN 500102

Toe Exerciser or Pilates Toe Exerciser reinforces, corrects, strengthens and aligns the toes. It strengthens and flexes the musculature and increases the ability to do Pilates workouts correctly, since the exercises are always without shoes.

In most of the current Pilates machines, such as the Reformer, the feet assume a fundamental role in the correct execution of the exercises, since most of them are performed without shoes. It is therefore important to strengthen the toes with the Toe Exerciser.

The Toe Exerciser is very comfortable to use. Two soft straps are placed on the big toes of both feet, leaving the device between them. Once in this position, the feet are moved to the opposite sides, generating resistance in the straps and exercising the toes.

ACCESORIES

AB MAT

PA 55059700

Size: 37 x 30 x 6 cm

ROTATION DISC

ELN 500002

Very smooth and quiet turning. Anti-slip.

Diameter: 30,5 cm. **Height:** 4 cm.

MINI MAT NON-SLIP KNEE PROTECTOR

ELN 800038

Non-slip protector. Perfect for Yoga and Pilates.

Size: 35 x 20 x 0,9 cm.

Size: 55,5 X 11cm

ERGONOMIC PAD

ELN 800104

Sizes: 28 x 18 x 7 cm

SLIDING PLATFORM

ELN 700125

Glides on any surface. Wooden structure, padded and with wheels.

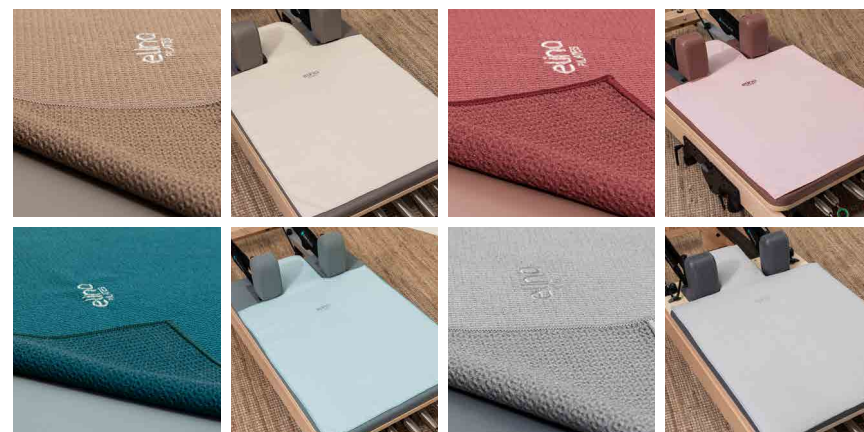

ACCESORIES

PILATES MACHINE TOWELL

ELN 80010003

Special towel for Pilates machine users. With a non-slip base for an optimal handle and slipping prevention on the mat, it is made of maximum resistance microfiber. Excellent sweat absorption and maximum hygiene.

Available colours:

LONG TOWELL

ELN 800110

Long towel for Reformer made of microfiber of maximum resistance with non-slip base. Maximum sweat absorption.

Sizes: 200 x 59 cm

SUSPENSION BELT

ELN 800053

Resistant and adjustable to all lengths. Includes grab carabiners. Adapted to suspension exercises on any platform. Originally designed for Elina Pilates ONNE Wall Board.

ADJUSTABLE FOOT STRAP

ELN 800024

Strap to hold the foot in the Reformer. It has two swivel carabiners. Short 52 to 70 cm. Long 70 to 110 cm.

BELLY STRAP

ELN 800025

Maximum length 230 cm. Minimum length 195 cm.

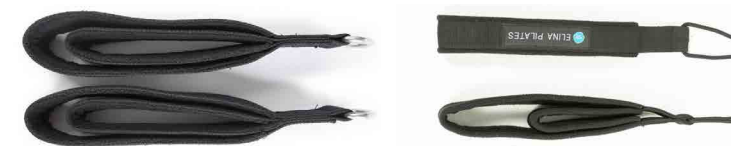

ACCESORIES

REFORMER DOUBLE HANDLES

ELN 800015

Double cotton handles. Padded. Maximum resistance.

REFORMER SIMPLE HANDLES

ELN 800014

Cotton simple handles. Padded. Maximum Resistance.

CADILLAC-REFORMER FUZZIES

ELN 800069

The "Fuzzies" for Cadillac in Pilates are plush pads that are placed at the end of the horizontal bars of the Cadillac to protect the user's hands and feet during exercises. Their soft texture provides comfort and a better grip during Pilates exercises.

REFORMER PADDED HANDLES

ELN 800013

Padded hand handles.

ANKLE LOOPS

ELN 500020

Designed to be fastened more easily than a conventional strap.

Perfect for people with difficulties or less ability to perform this kind of exercises.

REFORMER ROPES

ELN 800022

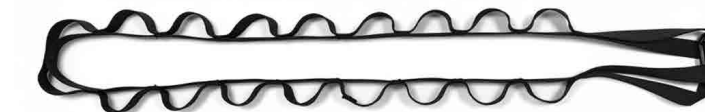

Reformer ropes. Size 2,7m. Made of super resistant synthetic material.

SUPPORT ROPE FOR PUSH BAR – REFORMER/CADILLAC

ELN 800023

Optimize the performance and safety of your machine with this fastening rope specifically designed for the Push Bar of Reformer systems with tower and Cadillac.

SMALL EQUIPMENT

SMALL EQUIPMENT

PILATES SPRING HANGER

ELN 800050

Wall hanger for 12 springs. Two extra hooks at each end for other types of accessories, such as handles.

SPRING FOR PILATES MACHINE
